Agency and Public Review and Comments

MCAS Miramar has coordinated the development of this INRMP with the U.S. Fish and Wildlife Service and the California Department of Fish and Game, as required by the Sikes Act. Appendix F includes copies of correspondence regarding this coordination.

MCAS Miramar provided the USFWS, the California Department of Fish and Game (CDFG), California State Historic Preservation Office, interested Indian tribes, potentially interested parties, MCAS Miramar lessees/easement holders, and the general public with opportunities to review and comment on drafts of the INRMP. The Draft INRMP was made available in local public libraries from July 30, 2010 through September 15, 2010, and it was posted on the MCAS Miramar web site (www.miramar.usmc.mil) during the same period. On July 30-31 and August 1, 2010, a Public Notice was placed in The San Diego Union-Tribune announcing the availability of the Draft INRMP for review and comment in local libraries and on the MCAS Miramar web site. The Draft INRMP public comment period began on August 1, 2010 and ended on September 15, 2010.

MCAS Miramar and Other Agency Reviewers

*MCAS Miramar**

Barbara Bell, GIS Specialist, Natural Resources Division, Environmental Management
Chuck Black, Wildlife Biologist, Natural Resources Division, Environmental Management
David Boyer, Division Director, Natural Resources Division, Environmental Management
JoEllen Kassebaum, Botanist, Natural Resources Division, Environmental Management
A.J. Ward, MCAS Miramar Training Area Management Officer, Operations and Training Department (S-3)

* Other MCAS Departments reviewed the INRMP and provided comments for INRMP preparation.

Headquarters, U.S. Marine Corps

Mr. Ryan Orndorff, Natural Resource Specialist, Headquarters, U.S. Marine Corps reviewed the INRMP and provided comments to improve the document.

Marine Corps Installations – West

Mr. Zachary Likins, Environmental Plans, Natural/Cultural Resources at Marine Corps Installations West, was involved in the development of the INRMP and this EA.

U.S. Fish and Wildlife Service

Scoping

Kathleen Brubaker, Supervisory Fish and Wildlife Biologist, Carlsbad Fish and Wildlife Office
Felicia Sirchia, Fish and Wildlife Biologist, Carlsbad Fish and Wildlife Office

Review and Comment

Jonathan Snyder, Supervisory Fish and Wildlife Biologist, Carlsbad Fish and Wildlife Office
Katy Kughen, Fish and Wildlife Biologist, Carlsbad Fish and Wildlife Office

California Department of Fish and Game

Meredith Osborne, Associate Biologist (Botany), Habitat Conservation, South Coast Region (5)

INRMP Preparers

Gene Stout and Associates has prepared various National Environmental Policy Act and natural/cultural resources planning documents for over 180 military installations in the United States.

Gene Stout - Owner and principle author of INRMP - Mr. Stout has Bachelor of Science and Master of Science degrees in Zoology with an emphasis on wildlife biology. Mr. Stout has 36 years of experience with Department of Defense environmental programs and was responsible for natural resources management and NEPA compliance at Fort Sill, Oklahoma for 18 years.

Geomorph Information Systems, LLC provided geographic information system support for preparation of the MCAS Miramar INRMP. The company has worked primarily with Navy and Marine Corps clients in Southern California, providing GIS support from the single-user to the enterprise level.

Eileen Goff - Manager - Ms. Goff has a Masters degree in Geography and has concentrated on the application of GIS tools in support of natural and cultural resources planning, analysis, and compliance. Since 1991 she has worked with all aspects of GIS planning, support, and implementation, with an emphasis on environmental planning and management applications. Ms. Goff was previously employed as the GIS Specialist in Environmental Management at MCAS Miramar.

Natural Resources Division, MCAS Miramar personnel are listed in the reviewers of the Station INRMP in the *Agency and Public Review and Comments* section of the INRMP. However, much of the original work was accomplished by the Division Director and staff. Division staff was particularly involved in the creation of appendices B (Plants) and C (Animals), photographs, and most INRMP tables and provided GIS databases for most maps. Natural Resources Division detailed reviews of various drafts of the INRMP were the basis for most improvements over the preliminary draft.
