

Guide to Air Station Recycling and Hazardous Waste Disposal

What Do I Do With?

- Aluminum / tin cans
- Cardboard
- Glass bottles / jars
- Magazines
- Newspaper
- Office paper
- Plastics
- Rinsed food containers
- Shrink wrap

Blue Bin Items

Regular Trash Receptacle Items

- Food contaminated containers
- Plastic picnic forks / knives / spoons
- Soft paper
- Tissues
- Napkins

Remember:
Recycling revenues keep the program operating and may provide excess funds to MCCS for Morale, Welfare, and Recreation (MWR) activities.

- Used oil and anti-freeze
- Waste lubricants
- Paints / solvents

The re-use of products outside of their initial intended purpose is what the **Pollution Prevention (P2)** program is all about. It allows the user to make creative and/or other predetermined re-use of commonly used products, containers and supplies.

The more you **recycle**, the more you **benefit!**
