

Marine Corps Air Station Miramar

Commanding Officer's Environmental Policy Statement

Marine Corps Air Station (MCAS) Miramar is strategically positioned in the Southwestern United States to support vital training and operations. We take great pride in being part of the San Diego community and appreciate the partnership and unwavering support from "America's Finest City." To be recognized as a trusted and respected community partner, we are committed to environmental stewardship while upholding the mission of the 3rd Marine Aircraft Wing (MAW) through the following core principles:

- **Compliance:** Strictly adhere to all environmental laws, regulations, and policies.
- **EMS Enhancement:** Continuously improve Environmental Management System (EMS) to support training and reduce mission and environmental risks.
- **Resource Conservation:** Protect natural and cultural resources for future generations.
- **Restoration:** Remediate past contamination to restore environmental quality.
- **Pollution Prevention:** Adopt best practices to prevent pollution and spills, minimizing compliance costs.
- **Waste Management:** Ensure proper disposal of all waste to avoid environmental violations.
- **Sustainability:** Promote renewable energy, resource reduction, and recycling.
- **Collaboration:** Partner with Federal, State, and Local agencies to share best practices and maximize returns on environmental investments.

Commitment MCAS Miramar's environmental efforts are built on compliance, conservation, restoration, and pollution prevention. These pillars guide our operations and planning, ensuring mission readiness while preserving our environment. This policy, and related goals and objectives, are communicated throughout the organization and are accessible to the public at <https://www.miramar-ems.marines.mil/> and through Marine Corps Order 5090.2.
